SECRET - 2 -

station. The two shipments presumably went to Falkenberg. <u>Between 2 and 5 October</u>, a total of 7 shipments were entrained at the Potsdam-Wildpark railroad station. ²

25X1 Comment. these were probably units of the 10th Gds Tank Div which, also according 25X1 to other observations, went from Potsdam to the Cottbus district 25X1 via Falkenberg. See Comment 2. 25X1 Comment. The departure of large elements of the 10th Gds Tank Div between 1 and 5 October, presumably for exercises in the Cottbus-Lieberose area, had already been reported 25X1 Including the shipments mentioned in the present report, a total of 16 to 17 trains were dispatched from 25X1 Priort, Satzkorn and Wildpark. Including the 23 x 122-mm field howitzers entrained in Wildpark on 5 October, a total of 47 field howitzers of this type has so far been observed. This confirms a previous assumption, according to which the u/i Arty Regt, as well as the 299th Gds Mort Regt of the division, were equipped with 24 field howitzers each.

Paragraph 2 of the present report tends to indicate that the exercise of the division terminated about 10 October.
